

Dear Parents,

Hope you all had a safe and happy Puja.

As you are aware even in these troubled times the school has made consistent and untiring efforts to reach out to all students for their holistic development. Our teachers have also continued to technologically upgrade themselves so that they can deliver quality education to all our students through the online mode.

We, at Shaw Public School, maintain a very cordial and healthy relationship with the parents of our students whom we consider a part of our family. We, therefore, take this opportunity to sincerely thank and appreciate all those parents who have been supporting the school steadfastly by paying regular fees. This has also enabled the school to extend support and grant concessions to parents who are in financial distress so that all our students are able to receive education. Many students have, in fact, already received concession from school which is not just 20% but much more.

Below please find the revised fees structure for the different levels of the school calculated on a monthly basis. It does not include Laboratory, Library and Computer charges.
